Competition Format

Competition points will be awarded from **match play** and **stroke play** for each golfer as well as points for **team stroke**. The team player with the lowest handicap will compete against the lowest handicap player on the opposing team and sequence on for all players. Lowest team handicap will be the "A" player. Next handicap is the "B" player etc. for "C" and "D".

As handicaps change, players' positions will change also. If a "C" player's handicap improves and is lower than the "B" player they will switch positions. This is to be determined before each night of play by the captains and team members. Failure of players to compete according to the schedule of play will result in team loss of nightly points.

Scoring

Each player will compete against a player of the opposing team in a 9 hole **match** competition and **stroke** competition. The match play winner will be awarded 2 Points. The stroke play winner is awarded one point.

As there will be 4 players per team this equals 12 points possible.

Another 1 points is earned by adding team total strokes minus total team handicap.

Teams with the lowest team stroke score is awarded 1 points.

Individual ties win 1/2 point, team ties win one point each.

Total of 13 points available nightly.
